- **Overview and History:**
  - Official Name: Cambodia Academy of Digital Technology (CADT)
  - Location: Phnom Penh, Cambodia
  - CADT is a public institution focused on digital technology education and training. It aims to develop human resources in the fields of information and communication technology (ICT), digital innovation, and related areas to support Cambodia's digital economy.
- **Academic Programs:**
  - CADT focuses on programs related to digital technology. These may include:
    - Information Technology (IT)
    - Computer Science
    - Telecommunications
    - Digital Media
    - E-commerce
    - Software Development
    - Cybersecurity
  - It is essential to check the CADT website for a complete list of their current program offerings as they may evolve rapidly to keep pace with the tech industry.
- **Admission Requirements:**
  - Admission requirements will vary depending on the specific programs. Generally, these may include:
    - Completion of upper secondary education (high school) or equivalent
    - Specific subject requirements, particularly in mathematics and sciences, for technology-related programs
    - Entrance examinations or interviews for some programs
  - Details on application procedures, deadlines, and required documents should be available on the CADT website.
- **Tuition and Fees:**
  - Tuition fees at CADT may vary depending on the program of study.
  - Information on specific tuition fees, application fees, and other associated costs should be available on the official CADT website.
  - Inquire about potential scholarships or financial aid options through CADT's student services or financial aid department.
- **Research and Innovation:**
  - As a technology-focused institution, CADT is likely involved in research and innovation in digital technology.
  - Information on research activities, projects, and any related publications can be found on the CADT website.
- **Student Life:**
  - CADT should provide facilities and services to support its students, such as:
    - Computer labs
    - Libraries
    - Internet access
    - Student support services
  - Check the CADT website for information on student organizations, activities, and any available accommodation.

- **International Relations:**
  - CADT may have partnerships or collaborations with international institutions or tech companies.
  - Information on international collaborations, exchange programs, or other international activities should be available on the CADT website.

Where to Find More Precise CADT Information:

- **Official CADT Website:** This is the primary source. Look for sections like:
  - "Programs" or "Courses"
  - "Admissions"
  - "About CADT"
